

Child Protection

A successful badminton club should have a strong and positive influence on its members, especially the younger members. The club will provide opportunities for enjoyment and achievement, and also help to develop key personal skills such as self-esteem, leadership and teamwork.

The purpose of Badminton Club Accreditation is to try to ensure that the management of the badminton club is in the right hands, i.e. of those who place the welfare of young people first and adopt practices and policies that support, protect and empower them.

By adopting an approved Child Protection Policy the club is making a statement that it believes every adult involved with the club has a legal and moral responsibility to protect the more vulnerable members of the club, including its young and disabled members.
